of chromophores, both intrinsic and extrinsic, in a variety of systems of biological interest.

**Correction:** In the article “Crystal and Molecular Structure of N,N'-Diethyl-N,N'-Diphenylurea”, by Ganis, P., Avitabile, G., Benedetti, E., Pedone, C. & Goodman, M., which appeared in the September 1970 issue of Proc. Nat. Acad. Sci. USA 67, 426–433, the following correction should be made in Table 2, p. 428: The z coordinate of atom N1 is 0.3517, not 0.3317.

**Correction.** In the article “DNA and Gene Therapy: Transfer of Mouse DNA to Human and Mouse Embryonic Cells by Polyoma Pseudovirions,” by Qasba, P. K. & Aposhian, H. V., which appeared in the October 1971 issue of Proc. Nat. Acad. Sci. USA 68, 2345–2349, several corrections should be made. On p. 2345, column 2, line 10 (from the top) should read: “10–40% sucrose gradient, containing...,” not “10–20%...” Due to editorial errors made in the PROCEEDINGS office, the following corrections should be made. The last line of the legend to Table 6, p. 2347, should read: “the nuclear fraction of 6.3 x 10⁶ infected cells was used for each hybridization.” In Table 6, p. 2349, the right-center column head should read “% Total cellular radioactivity.”
