Correction. In the article "DNA primase activity associated with DNA polymerase α from Xenopus laevis ovaries" by Masaki Shioda, Eric M. Nelson, Marvin L. Bayne, and Robert M. Benschow, which appeared in number 23, December 1982, of Proc. Natl. Acad. Sci. USA (79, 7209–7213), the authors point out that the next-to-last sentence (p. 7213, column 1, line 19) is incorrect. It should read "This is consistent with the results of Conaway and Lehman (12) if one assumes that X. laevis DNA polymerase α activity corresponds to that of the Drosophila melanogaster DNA polymerase-primase."

Correction. In the article "In vitro bypass of UV-induced lesions by Escherichia coli DNA polymerase I: Specificity of nucleotide incorporation" by Samuel D. Rabkin, Peter D. Moore, and Bernard S. Strauss, which appeared in number 6, March 1983, of Proc. Natl. Acad. Sci. USA, the following corrections should be noted. On p. 1543, in Table 1, the heading "dNTP added" should read "dNTP (250 μM) added." On p. 1544, line 11 of the right-hand column should read "in the binding properties of different dNTPs to the active . . ."
