Correction. In the article "Synthesis in animal cells of hepatitis B surface antigen particles carrying a receptor for polymerized human serum albumin" by Marie-Louise Michel, Patrizia Pontisso, Eliane Sobczak, Yves Malpiève, Rolf E. Streeck, and Pierre Tiollais, which appeared in number 24, December 1984, of Proc. Natl. Acad. Sci. USA (81, 7708–7712), the following correction should be noted. On page 7708, in the left-hand column, lines 14 and 15 of text should read "... HBeAg positive sera, while it comprises <1% in HBeAg negative sera (1)."
