Biochemistry. In the article “Rep protein of tomato yellow leaf curl geminivirus has an ATPase activity required for viral DNA replication” by Cécile Desbiez, Chantal David, Amel Mettoutchi, Jürgen Laufs, and Bruno Gronenborn, which appeared in number 12, June 6, 1995, of Proc. Natl. Acad. Sci. USA (92, 5640–5644), the authors request that the following correction be noted. Throughout the paper, concentrations for the compounds ATP, ADP, and AMP-PNP should be micromolar instead of millimolar.

Cell Biology. In the article “12(S)-Hydroxyeicosatetraenoic acid and 13(S)-hydroxyoctadecadienoic acid regulation of protein kinase C-α in melanoma cells: Role of receptor-mediated hydrolysis of inositol phospholipids” by Bin Liu, Wasiuddin A. Khan, Yusuf A. Hannun, Jozsef Timar, John D. Taylor, Steven Lundy, Igor Butovich, and Kenneth V. Honn, which appeared in number 20, September 26, 1995, of Proc. Natl. Acad. Sci. USA (92, 9323–9327), the communicator line should read as follows: Communicated by Pedro Cuatrecasas, Parke-Davis, Ann Arbor, MI, March 9, 1995.

Medical Sciences. In the article “Cystic fibrosis epithelial cells have a receptor for pathogenic bacteria on their apical surface” by Lisa Imudo, Jonathan Barasch, Alice Prince, and Qais Al-Awqati, which appeared in number 7, March 28, 1995, of Proc. Natl. Acad. Sci. USA (92, 3019–3023), the authors request that the following correction be noted. In Fig. 4A and B the values of the abscissa should be multiplied by 33.

Medical Sciences. In the article “Reduction of insulin gene transcription in HIT-T15 β cells chronically exposed to a supraphysiologic glucose concentration is associated with loss of STF-1 transcription factor expression” by L. Karl Olson, Arun Sharma, Mina Peshavaria, Christopher V. E. Wright, Howard C. Towle, R. Paul Robertson, and Roland Stein, which appeared in number 20, September 26, 1995, of Proc. Natl. Acad. Sci. USA (92, 9127–9131), the following correction should be noted. Due to a printer’s error, an incorrect word was introduced into a sentence in the Introduction (p. 9127, second paragraph, last sentence). The sentence should read as follows (corrected word in italic type): Interestingly, recent studies have demonstrated that pancreas formation is prevented in mice carrying a null mutation in STF-1 (ref. 14; C.V.E.W., unpublished observations).
