PNAS License to Publish
Open Access CC BY-NC-ND

Please complete both sections of this form and email it to PNASauthorlicense@nas.edu. Failure to return the form will delay or prevent publication.

License to Publish

1. Ownership of the copyright in the WORK— including but not limited to figures, tables, artwork, abstracts, supporting information as defined in the Proceedings of the National Academy of Sciences USA (PNAS) Information for Authors, cover images, and summaries submitted with the WORK—remains with the author(s), subject to the terms and conditions below.

2. In consideration of publication of the WORK in PNAS, the author(s) hereby grants to the National Academy of Sciences (NAS) for the full term of copyright and any extensions thereto an irrevocable nonexclusive, license to publish, reproduce, distribute, transmit, display, store, translate, create derivative works from and otherwise use the WORK in any language or in any form, manner, format, or medium now known or hereafter developed without limitation throughout the world, and to license others to do any or all of the above. In the event that NAS decides not to publish the WORK, this license shall be terminated.

3. The author(s) agrees not to assign exclusive rights with respect to the WORK to any other party. The author(s) agrees to credit first publication of the WORK in PNAS.

4. The author(s) acknowledges and agrees that PNAS will apply the Creative Commons Attribution-NonCommercial-NoDerivatives International Public License (CC BY-NC-ND) to the published WORK, which will serve as a grant of rights from the author(s) to such users.

5. The CC BY-NC-ND license allows users to use the WORK on a noncommercial basis without seeking permission from the author(s) or PNAS subject to the condition that no derivative works may be created by users. The resulting work must be made available under the same terms, and must include a link to the CC BY-NC-ND License. The full description of the current CC BY-NC-ND License may be found at https://creativecommons.org/licenses/by-nc-nd/4.0/legalcode.

6. The author(s) acknowledges and agrees that use of the published version of the WORK by the author(s) shall be subject to the terms of the CC BY-NC-ND License described above. After publication of the WORK in PNAS, the author(s) may make all uses of the WORK permitted by the CC BY-NC-ND license subject to all conditions of that license.

7. The author(s) warrants that the WORK is original research by the author(s), that all the facts it contains are true and accurate, that it does not infringe upon any copyright, proprietary, or personal right of any third party, and that permissions have been obtained and are attached for any portions of the WORK owned or controlled by a third party. The corresponding author of the WORK must sign this form. The signing author(s) represents and warrants that he or she signs this license as authorized agent(s) for and on behalf of all the authors and that this license is made on behalf of all the authors.

If WORK is a Work Made for Hire and the employer of the author(s) owns the copyright, this license to publish must be signed by an author and an authorized representative of the employer.

Documention Report:

If any of the following items are pertinent to your paper, we must receive the appropriate documentation or statements before we can publish your paper.

Please check the appropriate boxes and sign below:

☑ None of the three items below applies to this paper.

☐ Structural Coordinate Deposition and Release. Authors of papers reporting new or revised structures must deposit their coordinates in the Protein Data Bank or an equivalent public archive, and the accession numbers must be supplied for publication. You agree, by signing below, that the coordinates will be released when the article is published. A footnote reporting the accession numbers will be added to your paper. You must provide the accession numbers on the page proof.

☐ Sequence Database Deposition. Authors of papers reporting new sequences must submit these data to an appropriate database, and the accession numbers must be supplied for publication. A footnote reporting the accession numbers will be added to your paper. You must provide the accession numbers on the page proof.

☐ Permission to Print Previously Published Material. If your paper includes material (e.g., figures or tables) that were published previously or modified from a previous publication, whether or not you are an author of the earlier publication, you must provide the previous publisher’s permission to republish this material in print and online. We acknowledge that copyright is held by the original publisher. Please state which items were published previously and where:
