## Authorship

Authorship should be limited to those who have contributed substantially to the work. Authors must indicate their specific contributions to the published work; this information will be published as a footnote to the paper. The corresponding author must have obtained permission from all authors for the submission of each version of the paper and for any change in authorship.

## Competing Interest

All authors, members, referees, and editors must disclose any association that poses a competing interest in connection with the manuscript. Authors must acknowledge all funding sources supporting the work. See <https://www.pnas.org/page/authors/competing-interest> for details.

## Information for Authors

Please see the complete Information for Authors at <https://www.pnas.org>.
